

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

just as we tend to assume that the world is as we see it, we naively suppose that people are as we imagine them to be.

Place the needs and wants and the hopes and dreams of your spouse first. Anything and everything you do with and for the other accrues to a common account that pays huge dividends

A man may imagine things that are false, but he can only understand things that are ture, for if the things be false, the apprehension of them is not understand.

we are not what happened to us, we are what we wish to become.

If you don't give up your hopes and dreams, then there will always be a good ending.

people come and go in life, but they never leave your dreams. Once they're in your subconscious, they are immortal.

The Tableau HR Scorecard: Measuring Success In Talent Management.

The more we come in contact with animals observe their behaviour, the more we love them, for we see how great is their care of the young.

He who is cruel to animals becomes hard also in his dealings with men. we can judge the heart of a man by his treatment of animals.

Your focus influences your emotions. Your emotions influence your behavior. Your behavior determines your results. Your results determine your outcomes. Your outcomes determine your destiny.

You are the master of your destiny. You can influence, direct and control your own environment. You can make your life what you want it to be.

Start planning now how to create your own destiny instead of allowing people who don't like you to control your destiny.

The more we come in contact with animals and observe their behaviour. the more we love them. for we see how great is their care of the young.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
